

## **Laceby beck practical workday**

**Date** : Saturday 7th March 2015 - 10.00am - 3pm (approx.)

**Location** : Laceby Village

[Map of location and parking details link](#)

**Details** : Join the Laceby community and help them clear up part of Laceby beck. The banks are particularly overgrown and in need of attention! The purpose is to create a beautiful place to walk and view the wildlife on the chalk stream.

If it's safe to do so there'll also be a chance to do a bit of basic surveying to identify some of the invertebrates that are so vital to life around and in Lincolnshire's chalk streams.

No previous experience necessary, just enthusiasm and sensible clothing! (warm clothes, sensible footwear with good grips etc). Get in touch via the email address above if you are interested.
